Kyle F. Smith – Associate Director of Health System Audit

Kyle is responsible for assisting the director in performing the annual risk assessment and development of audit plans. Other duties include performing preliminary planning, establishing direction for audits, providing leadership to assigned auditors and managing project outcomes.

Kyle joined Duke in 2016 after eight years in both healthcare and public accounting. Kyle worked as a senior internal auditor at LabCorp, the world’s leading healthcare diagnostic company, where he was responsible for planning, designing and managing operational, financial and information technology audits. He also worked for KPMG, LLP.

Kyle holds a Bachelor of Science from Elon University and an M.B.A from the Martha and Spencer Love School of Business at Elon. He is a Certified Public Accountant (CPA) and an active member of the American Institute of Public Accountants, the North Carolina Association of Certified Public Accountants and the Institute of Internal Auditors.
